

# A Technology Tool for Education

Name: Nada Khalil Bin Took

ID: H00329524

# الهواتف الذكية Smart Phones

What is it mainly  
?used for

- Students in schools & colleges are using mobile phones for several purposes, for instance:  
access the internet, homework schedule, send e-mails to teachers , and conduct web searches.

- Also teachers are using smartphones in their teaching, they use it :  
To support lessons and activities and doing research

Have you ever  
seen and-or used  
?it

Yes, I saw and  
used it for many  
things like sending  
emails to my  
teacher.

# The approximate price of it

The prices of smartphones depend on the features ,qualities ,uses, shapes and types. Nowadays phones are expensive because of the improvement and development that happen to it .

The prices between 1500-5000

# How I as a future teacher would use it in Education?

I would use it to:

- Contact with students
- Sending e-mails
- Contact with students parents
- Download lessons from BB9 application
- Sitting quizzes
- Organize my thoughts in
- Using the notes app to brain storm and organize my thoughts
